

Movie or Song Cue Markers Please

Time based cue Markers

The screenshot shows a music player interface with a playlist and a progress bar. The progress bar at the top displays the current track 'Indulge In Kygo - 'Best of' Mix 2015' with a duration of 38:04 / 55:21 - 320 kbps 1 of 25. Below the progress bar, there are several red triangle markers indicating cue points. A tooltip box is visible over one of the markers, showing the time '0:31:25' and the text 'Passenger - Let Her Go, Kygo Remix' with an 'Edit' button. The playlist below shows a list of tracks with columns for Seq, BPM, Name, Artist, Rating, Genre, Duration, Bitrate, File Type, Date, and Lyrics.

Seq	BPM	Name	Artist	Rating	Genre	Duration	Bitrate	File Type	Date	Lyrics

14	127	AVICII - Waiting For Love								

Fly-out Tool-Tip Showing Movie Chapter or Song Mix Point or favourite movie scene etc.

Double-Clicking on the marker FFwd's or Rew to that point in time.

If the mouse pointer hovers over the cue marker, the info is displayed in the tool-tip box.

Right clicking on the marker allows for editing of the time and comments.

Obviously the meta data is saved linked to the file name playing.

Adding a new cue marker could be invoked by a Shift Click when over the progress bar as an example.
